# Beppu "Hells" Tour

Japan's first "Female Bus Guide"  
– an original idea of Aburaya Kumahachi

Aburaya Kumahachi, "the father of Beppu tourism" and the founder of Kamenoi Bus, started the Beppu Jigoku Meguri Bus Tours with female bus guides in 1928 – a first in Japan – as a special feature of Beppu tourism. This is the origin of the Beppu Jigoku Meguri Tour.

Founder: Aburaya Kumahachi

"Next stop is Umi-Jigoku,  
a place with a very unusual name  
in the middle of the mountains"

(The Japanese guidance is given in  
"seven-and-five-syllable meter")

A time slip to the good old days of  
the early Showa era with the nostalgic  
"seven-and-five-syllable meter guidance"  
that was used at that time.
